

SENIOR COLOURIST

Liam's credits cross many genres and, after nine years developing and honing his talent, his creative flair and technical knowledge is a force to be reckoned with. He has worked with both RAW and processed footage, up to 6k and across many different cameras so has a great understanding of how to get the best colour grade from each format.

The grading suite at Flix is Da Vinci Resolve but Liam can also operate Da Vinci 2KPlus, Baselight, and Apple Color.

Recent credits include CBBC's drama *So Awkward*, *Fred and Rose: The Untold Story*, *Gigglebiz* and ITV's *Perspectives*. Liam was also praised for his work on the *Emile Sande in Search of Frida Kalho* documentary, which won RTS Best Post Production in 2014.
